STATISTICS

- The study of data

STATISTICAL QUESTIONS

2 Conditions:

① Ask a specific population

Ex: The class
A club

People in cafeteria

Sixth grade students

② Offers a reasonable # of answer choices (not too few & not too many)

Ex: (☹️) NOT STATISTICAL QUESTIONS:

- "Do you like country ~~question~~ music?"

* No specific population

* Only 2 answer choices

(😊) STATISTICAL QUESTION:

"What is the 6th grades' favorite genre of music?"

* Specific population

* Reasonable variation of answers
